

WEATHER FORECASTING RESEARCH PART III

By Alphee Lavoie 3/18/2015

Testing techniques from C.C. Zain weather predictive book

C. C. Zain did his weather predicting using the charts of Moon's phases. The new moon, first-quarter, full moon and third-quarter

This research was done using 80 years of weather data for Hartford Connecticut

C.C.Zain also use the dispositor of the moon, the ascendant and the IC to make his weather forecast.

Example: if the Moon was in Pisces he turned to Neptune and the sign that Neptune is in will tell if it's wet or not. We do the same with the Ascendant. Example if the cusp of ascendant is Gemini we turn to Mercury and find out what sign Mercury is in. We repeat this with the IC.

Here's My Research THREE DAYS OF CONSECUTIVE RAIN

The dispositor of the IC in the sign of cancer chi-square 12.0 probability 99.9%

The dispositor of the Moon in a sign of cancer chi-square 3.0 probability 91.7%

The dispositor of the Ascendant in the sign of Scorpio chi-square 3.2 probability 92.6 %

The dispositor of the moon in the sign of Scorpio chi-square 3.0 probability 91.8 %

SELDOMLY HAPPEN

The dispositor of the of the ascendant in Aries chi-square 3.9 probability 95.1%

The dispositor of the moon in the sign of Aries chi-square 4.9 probability 97.3

The dispositor of the ascendant in a sign of Libra chi-square 10.5 probability of 99.9%

3 INCHES TO 12 INCHES OF SNOW

The dispositor of the Ascendant in the sign a Capricorn chi-square 19.7 probability 100%

The dispositor of the Ascendant in the sign of Pisces chi-square 19.9 probability 99.9%

The dispositor of the IC in a sign a Capricorn chi-square 19.4 profitability 100%

The dispositor of the Moon to sign a Capricorn chi-square 3.8 probability 90.448%
the dispositor of the Moon in the sign of Scorpio chi-square 5.1 probability 97.7% the
dispositor of the Ascendant in the signs in a sign of Scorpio chi-square
PROBABILITY 100%

SELDOMLY HAPPEN

The dispositor of the IC in the sign of Virgo chi-square 12.2 probability 100%

The dispositor of the Ascendant in the sign of Libra chi-square 9.7 probability 99.8

The dispositor of the Ascendant ascendant in the sign of Aries chi-square 12.4
probability 100%

CONCLUSION

the wettest sign are Capricorn and Scorpio. They seem to bring heavy rain and heavy snow. But she can't leave out the sign of cancer and Pisces are also very wet signs. But in general it will bring witness. If we analyze the 10 biggest blizzard snowstorm in Boston for the last 50 years each over 20 inches of snow. All of them proves what Zain said about that Scorpio and Capricorn being the blizzard signs and Scorpio being the extreme. All but one had the Moon the IC and the ascendant and its dispositors in a sign of Scorpio.

The Air and the Fire sign seems to be more barren. Aries, Libra, Gemini and Virgo tends toward drier weather.
